

AMARA A. KAMARA

Creative Designer & Fullstack Developer

0773114474 | akamar5050@gmail.com | F.D.A Bernard's Farm, Paynesville

Github: github.com/rozo-dev | LinkedIn: <https://lnk.dev/OzNKC>

PROFILE

Full-stack web developer and IoT engineer with a strong creative design background. Experienced in building real-time, data-driven web applications using the MERN stack, WebSockets, and IoT communication protocols. Combines solid engineering fundamentals with clean UI/UX thinking to deliver scalable, user-focused digital products.

TECHNICAL SKILLS

Web & Software:

JavaScript, TypeScript, React, Next.js, Node.js, Express, MongoDB, PostgreSQL, REST APIs, JWT, Passport.js, Socket.IO, CI/CD, Git, GitHub

IoT & Systems:

Arduino, ESP32, Embedded Programming, MQTT, Sensor Integration, Real-time Monitoring

Design & UI:

Figma, Adobe Illustrator, Photoshop, After Effects, UI/UX Design, Branding

SOFT SKILLS

Visual Communication, Effective Communication, Public Speaking, Proactivity & Team Collaboration

SELECTED PROJECTS

WaterWatch — IoT Water Management System

<https://waterwatch-murex.vercel.app/>

Intelligent IoT-based platform for real-time water monitoring and control, including leak detection, water quality tracking, pump control, and live dashboards.

Tech: React, Redux Toolkit, Tailwind, Socket.IO, Node.js, Express, MongoDB, MQTT, JWT

HMonitor — Real-Time Health Monitoring System

<https://hmonitor.vercel.app/>

Web platform for live patient temperature and heart-rate tracking with secure access, charts, and email reporting.

Tech: React, Tailwind, Chart.js, Socket.IO, Node.js, MongoDB, JWT

Recap — Full-Stack Note-Taking App

<https://recap-note-puce.vercel.app/>

MERN stack application for organized and visually clean note-taking with authentication and categorized content.

Tech: React, Context API, Tailwind, Node.js, Express, MongoDB, Passport.js

Qubic — AI Automation Agency Website

 <https://qubic-psi.vercel.app>

Modern, motion-driven marketing website showcasing AI automation services with clean UI and smooth interactions.

Tech: React, Tailwind, Sass, Framer Motion

WORK EXPERIENCE

Fullstack Web Development Intern — Zidio

May 2024 – August 2024

- Contributed to web-based and digital tasks within a collaborative team environment.
- Assisted with documentation, system organization, and digital content handling.
- Applied structured problem-solving and technical skills to support digital projects.

Co-Founder / Creative Director — The Islamic Voices

May 2021 – Now

- Leads the creative team in creating video contents and and graphic communications
- Manages the organization's social media handles.

Co-founder / Graphic Designer — Wize Global

April 2025 – Now

- Handles all digital communication for the Company.
- Plan video content.
- Design graphics for marketing and promotion.

Office Assistant & Graphic Designer — Tamma Corporation

February 2021 – September 2021

- Supported daily office operations, documentation, and administrative activities.
 - Designed visual materials to support internal communication and external brand needs.
 - Assisted with branding-related tasks, content preparation, and digital materials.
 - Worked closely with team members to support communication and creative requirements.
-

EDUCATION

Jain University, India

2021 - 2025

B.Tech — Computer Science & Engineering (IoT)
Fully funded scholarship

CMFI Bilingual High School

2018 - 2021

High School Diploma

PUBLICATION

Smart Water Management Technology: An IoT-Based Solution for Efficient Water Resource Management

International Journal of Innovative Research in Technology, 2025

CERTIFICATIONS

- Full-Stack Development — Udemy
-
